

A580 Flow cell

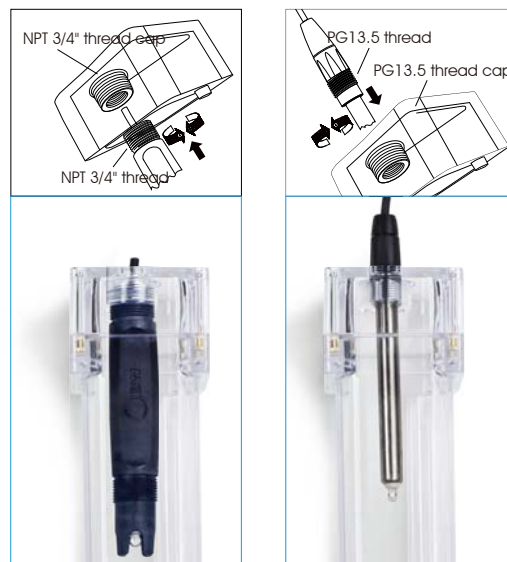

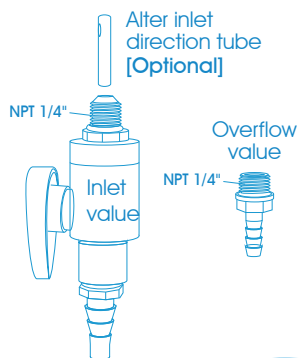

A580 series flow cell is designed to support the measurement of water quality. With installing the appropriate sensor (PG13.5 or 3/4" NPT thread), you can easily conduct in-line analysis.

A580 is in an air-tight structure, it can effectively avoid bubble generation in the flow to minimize interference to your analyze results.

Material	Polycarbonate
Top Mount	PG13.5 or 3/4" NPT fitting
Body Inlet/Outlet	1/4" NPT
Connection tubing	10x6.5 mm tubing
Temperature	0-50 °C
Pressure	0-3bar
Dimensions	83(L)X69(W) x 230(H) mm

Name Description

A580	Clear body / PG13.5 thread cap
A580-L	Clear body / PG13.5 thread cap / with alter inlet direction tube
A581	Clear body / NPT 3/4" thread cap
A581-L	Clear body / NPT 3/4" thread cap / with alter inlet direction tube
A590-L	Black body / NPT 3/4" thread cap / with alter inlet direction tube
